CONSENT FOR ACCESS TO PROPERTY

Name: Joe & Felicitas Hardin (or current property owner)

Location of Property: 3784 Williams St

I consent to officers, employees, and authorized representatives of the United States Environmental Protection Agency (EPA) entering and having continued access to the above referenced property for the purpose of taking samples of soil on the Site.

I realize that these actions are undertaken pursuant to EPA's response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA or Superfund), 42 U.S.C. § 9601 *et seq.*

RE: 3784 WILLIAMS ST

Dear Owner,

As part of the VB/I-70 Superfund Site investigation, we recently took soil samples at your property to find out if there is too much lead or arsenic in your yard. *The results show that your property does not require a cleanup.* The levels of both lead and arsenic are below our cleanup levels. The soil sampling results for your property are as follows:

ADDRESS: 3784 WILLIAMS ST

EPA Cleanup Levels

Lead

203 parts per million (ppm)

above 400 ppm

Arsenic

6 ppm

above 70 ppm

This means that your property is not considered by EPA to be part of the VB/I-70 Superfund Site. EPA does not believe that further measures are necessary. You and your family are not at significant risk from arsenic through ordinary contact with soil in your yard while playing, working, gardening, etc. Please note that there may be small areas in your yard, particularly near your house, that may have higher levels of lead due to peeling, external lead-based paint. EPA encourages all owners of older properties to take reasonable precautions regarding lead-based paint.

For further information, please feel free to contact EPA Community Involvement Coordinators Jennifer Chergo at (303) 312-6601 or Patricia Courtney at (303) 312-6631.

Sincerely,

Victor Ketellapper
Remedial Project Manager
The Environmental Protection Agency, Region 8
